

Applicant(s): Johannes Bruijns  
Serial No.: 10/023,166  
For: Method of analyzing a data set comprising a tubular structure  
Filed: December 18, 2001  
Examiner: Dang, Duy M  
Group Art Unit: 2627

Attorney Docket No.: NL000772

### REMARKS

Claims 1 through 4 have been allowed in the present application and the present application has been found in condition for allowance except for certain formal matters relating to the proposed Abstract previously submitted.

Accordingly, in an effort to comply with the Examiner's request for a new abstract generally limited to a single paragraph and provided on a separate sheet within the range of 50 to 150 words, Applicant has revised the Abstract previously submitted (of 1-23-06), see previous section, and respectfully requests that such New Abstract be appropriately incorporated into the specification so as to effectively address the noted formal objections identified via the Action as being associated therewith.

In sum, it is respectfully submitted that this application is now in condition for allowance. Accordingly, reconsideration and withdrawal of the stated formal objections and allowance of this application are respectfully solicited.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'David L. Barnes', written over a horizontal line.
